6) Who should be held responsible for this? Please refer in this connection R. No. [illegible] dated 4/8 under Sub[illegible] Separately [illegible]

5) Please see remarks in the margin regarding that Ld. Report [illegible] can then be submitted. Such errors will be avoided by [illegible] 4.8 [illegible] 4/8

7) Revised draft embodying the remarks made in the margin is submitted herewith.

8) The employment referred to in paragraph 29 is the employment of the convicts in the jails as industries.

9) The rates in Madras are contained in Statement XIII, and the net-cost per head average strength is Rs 65-3, though in particular jails as the Madras Penitentiary it is nearly somewhat more. In Coimbatore jail, the costs no more than Rs 36-15, and is attributed to the large cash earnings in that jail. In Bengal the net cost is Rs 82-8, and in Burma it is Rs 57-1-9. In Madras, it was Rs 78-5 last year.

10) Paragraph 31. The [illegible] relating to the industries in jails is limited hereunto.

1917.

From Rao Bahadur Rajakaryapravina,
T. V. Arumugam Mudaliar, Esqr, M.B., C
Inspector-General of Prisons
in Mysore.

To D.M.Narasinga Rao, Esqr, B.A., B.L.,
Secretary to the Govt of H H the
Maharaja of Mysore, Genl Dept,.

No. 677/91-07

Dated 5th May 1917.

Introductory.

In continuation of my letter No.628 91-07 dated 30th April 1917 forwarding t Annual Returns of the Jails and the Lock ups of the State for the calendar year 1 I have the honor to submit the following report on their administration.

Division.

2. This report is as usual, divided into three parts, viz, Part I-Judicial - dealing with statements Nos. 1 to 8, 18, C,D and General Summary, Part II-Financia dealing with statements Nos. 9,10,11,12 & 13 and Part III-vital-dealing with statements Nos. 14-17, A & B.

Inspector-General of Prisons.

3. I was in charge of the Department throughout the year.

Classes of prisons.

4. The number of Jails and Lock-ups remained the same as in the previous year and they are as given hereunder:-

1 Central Jail at Bangalore.
1 District Jail at Mysore.
6 District Lock-ups at the Head quart towns of Districts except at Bangal and Mysore.
1 Special Lock-up at Kolar Gold Field
71 Taluk Lock-ups.

5.

ıilding and accommodation.

5. The Bangalore Central Jail.

The buildings of this Jail are very - old and in a dilapidated condition. In th year 1908, Government sent to the Chief - Engineer of Mysore a list of improvements to be effected to this Jail, requesting - him to carry them out gradually by provid- ing 40 or 50 thousand rupees every year f the purpose. But a very few of them have been attended to up till now. In this connec- tion, I may mention here that the founda- tions of the present buildings have almos settled down, walls cracked, wooden fitti doors, windows &c deteriorated. To constr a new central Jail outside the Municipal limits with necessary equipments and exte sive lands for gardening purposes would r ther be a desirable procedure than to spe 40 or 50 thousand rupees annually on re- - pairs to the existing buildings as contem- plated originally. I have called for defi nite proposals in the matter from the Su- perintendent, Central Jail, Bangalore, whic I shall submit for the consideration of Go vernment in due course.

Mysore Jail.

As regards this Jail, the Superintend states that the buildings are very old and need constant repairs. The roofs are bend- ing under pressure. Improvements and re- - pairs to these buildings @@ were estimated at Rupees 20,890/- and this amount has bee sanctioned by Government. Vide letter No. 1145-5561 dated 8th June 1916 from

Secretary to Government Public Work Department, to the Superintending Engineer Southern Circle. The necessary works in question have not been commenced as yet.

LOCK-UPS:- The estimate for the readjustment and repairs of the old Jail buildings at Tumkur for the purpose of locating the District Lock-up has been sanctioned by the Government and the matt is reported to be in the hands of the Pu lic Work authorities. The new Lock-up at Tiptur is stated to have been complete The construction of the new Lock-up at - Chintamani, was completed and the buildin handed over to the Department during the year under report. The building for Loc up purposes at Chickballapur, the constru tion of which was taken up last year, is, it appears, nearing completion.

The provision of separate accom modation for various classes of prisoners in the Lock-ups of the State has been a long felt want. Estimates amounting nea to Rs.18058/- were sanctioned by Governme in their order No.J.2314-16/Pris.50-15-4 dated 30th December 1916 and the Chief Engineer has been furnished with a list of such Lock-ups as are requiring immediate attention.

Part I-Judicial.

6. The year under report opened with a population of 1225 prisoners of all clas es; 9857 prisoners were received and 9819 discharged, leaving a balance of 1263 pris ers in confinement at the end of the year.

Although the prisoners received and discharged were less than the previous year, the daily average has risen from 1244.84 to 1260.20. This raise in the average number may be accounted for the period of detention of prisoners in Jails being longer than the preceding year.

Civil Prisoners.

7. At the beginning of the year, there were 10 civil debtors remaining in custody 164 were received and an equal number discharged, leaving a balance of 10 at the close of the year. The daily average number of this class of prisoners was 9.19 against 8.83 in the previous year.

Convict population.
Statement No. I.

8. At the commencement of the year, the convict population was 947, of whom 918 had been direct committals and the remaining 29 in transit. New admission of the former class numbered 2234 and the admissions by transfer 81, making a total of 3233. Of these 10 were transferred to the Central Jail, Vellore, 81 were transferred from one Jail to another within the State, 106 were released on appeal, 1755 on expiry of sentence, 256 under remission rules 2 escaped, 6 executed and 10 died, leaving a balance of 1007 at the close of the year. Among the latter class of convicts, ie, convicts in transit whose number was 29 at the commencement of the year, fresh admissions numbered 809 making a total of 838. Out of these, 819 were actually transferred

11 were released on appeal and 1 escaped, leaving a balance of 7 at the end of the year. The daily average number of convicts was 985.61 against 993.23 in the year preceding or a slight decrease of 7.62.

Sexes of Convicts.

9. Out of 2234 direct admissions to prisons, 2096 or 93.82 percent were males and 138 or 6.18 per cent were females. Their percentages were 95.90 and 4.10 respectively in the previous year.

Religion, Age, Education and occupation of convicts. Statement No. II.

10. Classified according to religion, 127 or 5.69 percent of the total admission were Christians, 371 or 16.61 percent were Mohamedans, 1733 or 77.57 percent were Hindus and 3 or .13 percent were Budhists and Jains against 7.92 percent of Christia 13.35 percent of Mahomedans 78.68 percent of Hindus and .05 percent of Jains, among those admitted in the year preceding. The ratios of Christians and Hindus have decrea sed by 2.23 and 1.11 respectively, while those of Mahomedans and Jains have increase by 3.26 and .08 respectively as compared with the figures of the previous year.

Age periods.

11. The number of convicts under 15 years of age admitted during the year was 28 or 1.25 percent, between 16 and 40 years 1829 or 81.87 percent, between 40 and 60 years, 353 or 15.80 percent and above 60 years 24 or 1.08 percent.

Education.

12. Classified according to education, 29 or 10.25 percent were able to read and

write.

write, 100 or 4.48 percent were able to read only and the remaining 1905 or 85.27 percent were illiterate. Similar percentages of those admitted in the preceding year were 16.44, .69 and 82.87 respectively.

Previous occupations.

13. Out of the total number of convicts admitted during the year, 2096 were males, among whom:-

72 or 3.44 % were Govt or Municipal servants.
59 or 2.82 % professional persons.
190 or 9.07 % were persons in personal service.
959 or 45.75 % were agriculturists.
214 or 10.21 % were persons engaged in commerce and trade.
182 or 8.68 % were persons employed in mechanical arts etc, and
420 or 20.03 % were miscellaneous not classed otherwise.

Agriculturists form the bulk of the admissions, their percentage in the year preceding being 40.09 of the total number of males admitted. Next in order come miscellaneous persons not classed otherwise and persons engaged in commerce or trade.

Civil condition of females.

14. Among 138 females, the married women numbered 60 or 43.48 %, unmarried 36 or 26.09 %, widows 35 or 25.36 % and prostitutes 7 or 5.07 %. As in the previous yea the married women have preponderated over the others.

Length and nature of sentence.
Statement No. III.

15. Of 2234 convicts that were admitted direct into the Jails, 990 had not more than one months' imprisonment to undergo. The proportion of short periods of imprisonments is excessive as usual. 16.

16 prisoners sentenced to transportation for life and 7 prisoners sentenced to - suffer death were admitted to Jails against 10 and 9 respectively in the year previous. Classified according to nature of sentence:

193 or 8.64 % had been sentenced to simple imprisonment.
2025 or 90.65 % had been sentenced to rigorous imperisonment.
13 or .58 % had been sentenced to rigorous imprisonment with solitary confinement.
3 or .13 % had been sentenced to rigorous imprisonment with whipping.

Nature of Offences. Statement No. D.

16. Theft including theft in a building and by servants outnumber all other causes of imprisonment; the convictions thereunder being 1143 or 51.16 % of the total admissions. Convictions under Special, Local & Municipal Laws have decreased, being 154 or 6.89 % against 229 or 10.89 % of the total number of admissions in the year 1915.

Shows in 10.57 vide last year's report.

Recommittals, Habituals and Juvenile offerders. Statement No. IV.

17. Of the total number of admissions into Jails and Lock-ups during the year, 330 had been previously convicted. This number includes 15 female convicts. [illegible] The number of admissions among Juvenils was [illegible] less than that in the year previous, being 12 against 19.

Classification of prisoners.

18. The Superintendent, Mysore Jail, complains to me that there is very little scope for the classification and separatic of convicted prisoners in that Jail beyond

Jail

the

the bare fulfilment of the provisions ~~of~~ of rule 197 of the Mysore Jail Manual. At work and out of work casuals mix with -- habituals and get themselves initiated in wicked ways. If one of the objects of imprisonment, is the reclamation of casual offenders, it can only be achieved by effectually separating them from those hardened in crime. To separate entirely -- casuals from recommittals and habituals - is not possible, in as much as the barracks &c of this Jail are situated one behind the other instead of radiating from a centre as in well designed Jails. The construction of a Jail therefore for the exclusive confinement - of prisoners of the latter type appears - to be the only best solution possible.

apes and recaptures.
Statement No. V.

19. Of the 22 convicts who had escaped during the previous 10 years, none was recaptured in the year under report. The escapes during the year numbered 3, two being from the Bangalore Central Jail and one from the Special Lock-up, Kolar Gold Fields. Out of the two that escaped from the -- Bangalore Central Jail, One was recaptured and the other is remaining still at large. The one convict who had escaped from the Kolar Gold Fields Lock-up was also recaptured during the year. The two recaptured prisoners in question were suitably dealt with for the offence of escape from lawful custody.

20.

Offences and punishments. Statement No. VI.

20. The total number of offences recorded was 246 against 408 in the year previous. All the offences have been dealt with by the Superintendents of Jails themselves under the authority vested in them by the Prisons Act of 1870. Of the offenc tried by them, 51 or 20 % have been met - with corporal punishments against 50 or 12 percent in the year 1915.

Convict Officers. Statement No. VII.

21. Among a daily average number of 985.61 convicts, 129 or 13.08 % were employed as Prisons officers against 123 or 12.38 % of the daily average number of con victs employed in the year previous. The number of recorded offences rose from 27 i 1915 to 54 in the year under report.

Diet. Statement No. VIII.

Flag L

22. The scale of dietary sanctioned - tentatively by Government in their Order No. J. 2598/Pris. 45-10-5 dated 13th March 1911 was in force till the end of March - 1916 in the case of all Indian convicts - under sentence of hard labour in both the Jails of the State. This scale was made - permanent thereafter with the modification that non-vegetarians are allowed to have meat (without bone) in lieu of dhall once a week at the rate of 4 ozs per individual.

Vide Government Order

Flag H. N

Order No. J. 3750-51/Pris.24-15-6 dated 21st March 1916. In the case of other - prisoners Viz, Europeans and East Indians, simple and undertrial prisoners confined in the Jails and of all classes of prisoners in the Lock-ups of the State, the -- scales of dietary prescribed in the Mysore Jail Manual of 1894 and in the Lock-up - Rules of 1892 were in force.

Undertrial Prisoners. Statement No. XVIII.

Flag O. X

23. This statement is submitted along with the others duly prepared in the revised form, the adoption of which was -- sanctioned by Government in their Order - No. J. 2004/Pris. 32-16-2 dated 4th Deccember 1916. The main object of amending the form is to obtain accurate information as to the number of undertrial prisoners discharged and acquitted by Magistrates and released by Police respectively. There remained 268 prisoners of this class at the commencement of the year. Fresh admissions numbered 6569 making a total of 6837. Of these 505 were released on bail,
1456 were discharged and acquitted by Magistrates,
1779 were released by the Police,
1965 were convicted and sentenced,
888 were transferred and
5 escaped, leaving a balance of - 239 at the close of the year. The number of admissions and acquittals decreased from that of the previous year. But their average period of detention was longer than tha of the year preceding ie, 14.20 days agains 12.00 days and consequently their daily avarage has increased from 242.78 to 265.40

Mark system.
Statement No. C.

24. The number of convicts released under the operation of the Mark Rules of 1899 was 256 against 281 in the year befo The number came under the operation of b the Mark Rules of 1899 and the Ticket-of Leave Rules of 1892 was 3 against 10 in year preceding. The maximum remission - gained was 1521 days by a life convict o the Bangalore Central Jail. The maximum gratuity earned by another life convict the same Jail was Rs 48-3-0. The average gratuity earned by convicts released was Rs 0-14-0 during the year against Rs 1-1 in the year 1915.

Part. II. Financial.

Gross expenditure.
Statement No. IX.

25. Excluding the outlay on account buildings, the gross expenditure during the year was Rs 1,10,178-5-11 against Rs 1,06,237-2-11 in the year previous. Of al the heads of expenditure, the only one th has shown decrease is "Die ary charges", which is mainly due to the cheaper rates at which articles of diet were purchased during the year under repo The other heads show an increase, that of "Establishment" showing it more markedly than the rest. The increase of nearly Rs 2400/- under "Establishment charges" may chiefly be attributed to the increased rat of pay drawn by the Superintendent, Centra jail, Bangalore. As a result of this, the cost per head rose slightly from Rs 85-5-6 in 1915 to Rs 87-6-11 in the year under

under report.

Employment of convicts. Statement No. XI.

26. Of a daily average of 985.61 convicts, 900-67 or 91.38 % were available - for work, the rest being either prisoners undergoing simple imprisonment, sick and convalascent or infirm or those who could not be employed for other reasons. Of the convicts available for work, 129 or 14.32 % were employed as Prison Officers, 50 or 5.55 % as Prison servants and 303 or 33.64 percent on manufactory against 123 or -- 13.56 %, 45 or 4.96 % and 291 or 32.09 % of the daily average of convicts available for work, employed respectively as such in the year 1915.

earnings of prisoners. tatement No. XII.

27. The result of employment of con- - victs was that a sum of only Rs 15,092-8-2 was realized as revenue against Rs 16,211-13-0 realized in the previous year. This amount includes a sum of Rs 1552-15-0 received in Court fee stamps for testing -- weights and measures in the Central Jail at Bangalore and also another sum of Rs - 2945-4-0, which is the value of convict - labour employed at the Palace institutions and Dewan's Quarters in Bangalore & Mysore calculated at the rate of 2 annas per head per diem and accredited only in the administrative accounts of the Department. The average cash earnings per head of working convicts has consequently come down from Rs 17-14-1 in 1915 to Rs 16-12-1 in the - year under report.

28.

Net cost of Prisoners. Statement No. XIII.

28. The gross cost of maintenance was, as stated in para 25 above, Rs 1,10,178-5-11; deducting from this, the total cash earnings of prisoners ie, Rs 15092-8-2 (vide para 27 above), the net cost of maintenance of prisoners in Jails and Lock-ups was Rs 95,085-13-9 or Rs 75-7-3 per head against a net cost of Rs 90025-5-11 or Rs 72-5-2 per head in the year previous. As already explained, the increased rates of expenditure under several of the heads have been the main cause in bringing out this increased cost per head.

Industries in Jails.

29. The Bangalore Central Jail.

The outlay on the various industries carried on in this Jail was Rs 18,734-14-0 and the amount realized and credited to Treasury was Rs 22,326-13-10 or an increase of Rs 3591-15-10 against Rs 18,614-0-9 and Rs 23,013-3-9 respectively in 1915. The Superintendent says that in calculating the realizations, the value of raw materials and the manufactured goods that remained at the beginning and end of the year under report has not been taken into account; nor has the outstanding debts been included.

In the new branch of making and testing weights and measures, 24,947 measures presented by the public were tested and stamped and a sum of Rs 1552-15-0 is reported to have been realized in the shape of court fee stamps for verifying and stamping measures during the year under report against

against Rs ~~15554-0-0~~ 15-5-3-4-0 for 24884 measures tested in 1915.

30. Mysore Jail.

The manufacturing branch of this Jail has worked with a profit of Rs 564-11-2 - during the year under report. The amount allowed annually for outlay for manufacturing purposes is about Rs 1200/-. The Superintendent of this Jail states that, under the existing conditions the net profit accruing from out of this amount cannot be - improved to any thing far more than the -- Jail has made this year. Much more can be done, but that requires an adequate set of teachers &c and workmen equipped with up-to-date tools and plant.

31. Proposals for enlarging the industries in the Mysore Jail have already been made and the orders of Government thereon are awaited. As for the improvement of industries in the Central Jail at Bangalore, I have called for detailed proposals from the Superintendent of that Jail, which I shall submit to Government in ~~the~~ due course with my opinion thereon.

32. As I have been representing to Government year after year, the maintenance of accounts relating to the industries carried on in the Jails is not very satisfactory. To gauge definitely the loss or gain in a particular branch of industry, the accounts relating thereto should necessarily be maintained in such forms as would give a clear

3rd

idea of its working. The necessity for prescribing the revised forms and registers on this account is being felt very keenly and I hope that the matter will receive attention of Government, when the revised Jail Manual which is now before them will issue.

33. Central Jail garden.

The garden in this Jail has supplied the requirements of the Jail without interruption. The outlay on account of the purchase of seeds, implements &c, was Rs 267-12-5 and the realization by the sale of vegetables to the public was Rs 639-11-5 The value of vegetables supplied to prisoners amounted to Rs 1207-4-2. The Superintendent reports that the realization on account of supplies made to prisoners is less when compared to the average number of prisoners employed in the garden. This is mainly attributed to the fact that the value of the vegetables so supplied was calculated at the rate tendered by the contractor, which was lower than the ruling market rate

34. Mysore Jail garden.

The amount spent on this garden was only Rs 24-0-5, while the proceeds of vegetables &c. sold to the public was Rs 326-3-5. The cost of vegetables consumed by the prisoners themselves amounted to Rs 364-9-5. Comparing the outlay with the realization, it may be gathered that the garden in this Jail has

done good work during the year under report.

Sickness and Mortality. Statement No. XIV.

35. In the years previous, the Jails and Lock-ups in the State, exclusive of Hospital and observation cells, were capable of accommodating 2334 prisoners, but in the year under report accommodation became available for 2359, which was due to:-

(1) the re-measurement of barracks and the re-fixing of accommodation at standard cubical dimensions in the District Jail at Mysore, and

(2) the additions and alterations effected to some of the Lock-ups buildings during the year.

The aggregate number of prisoners admitted into Hospital came down from 477 in 1915 to 455 in the year under report. The daily average number of sick consequently fell from 19.38 in 1915 to 14.36 in this year. The number of deaths (all occurred among convicts of the Central Jail at Bangalore) is 10 against 22 in the year previous.

Sickness and mortality among convicts. Statement No. XV.

36. The number of convicts treated for various diseases decreased all over except those treated for malarial fevers. The admissions for these fevers (malarial) rose from 113 in 1915 to 191 during the year under report, but no deaths occurred among them. Of the 10 deaths among convic

2 due to dysentery,
1 due to tubercle of the lungs,
2 due to pneumonia,
1 due to diarrhoea and the remaining
4 due to other general diseases enumerated below:-
1 diabetis, 1 Cirrhosis,
1 synovitis, 1 bronchitis.

ality according to ength of original sentence. atement No. XVI.

37. Out of the 10 deaths among the convicts, 3 occurred among those whose - sentence did not exceed six months, 2 among those undergoing sentence not exceeding one year, 3 among those whose sentence did not exceed three years, and the remaining 2 among those whose sentence was above seven years.

Mortality according to length of time passed in Jails. Statement No. XVII.

38. Of the number of deaths, ie, 10, four died within 6 months after their admission, 3 within one year and the remaining ~~one~~ three within ~~two~~ seven years. These figures - however indicate, in a general way, the - state of health in which many prisoners - are found on admission into Jails.

Accommodation in Jails. Statement No. A.

39. No overcrowding was reported during the year either from the District Jail at Mysore or any Lock-up in the State. But the Central Jail at Bangalore became overcrowded and consequently a batch of 75 convicts was transferred from there to the Mysore Jail.

Conditions of convicts discharged. Statement No. B.

40. The total number of convicts discharged during the year was 3057 against - 3198 in the year previous. of these, 1619 convicts who were discharged from - Lock-ups were, as usual, not weighed either at the time of their admission or discharge. Of the remaining 1438 convicts that were released from the Jails after - weighment, 768 had gained weight, 340

had

had lost weight and the remaining 330 had neither gained nor lost it.

Drainage & conservancy.

41. No innovations were effected in the directions during the year under report. The dry earth system of conservancy has been in force in Jails as well as in Lock ups, male prisoners are adopting the Hebr method of evacuation in Lock-ups.

42. Articles of diets were, as usual, and subject to the conditions laid down i the Rules relating to the purchase of - stores, obtained from contractors at rate previously agreed upon in the case of Jai at Bangalore and Mysore. In the case of Lock-ups, the procedure of obtaining food grains etc. at the prevailing market rates from respectable local merchants, - that was ~~existing~~ in force in the year previous co tinued during the year under report.

Water supply.

43. Water supply was ample throughout and wholesome during the year under report except in the Central Jail at Bangalore, where difficulty was felt in getting supply of water of sufficient quantity in the female prison as well as near the rear gate The water supply department has not rectified the defects notwithstanding frequent requisitions.

Clothing and bedding of prisoners.

44. Clothing and bedding were issued to prisoners according to seasonal requir ments and the rules in force.

Religious and moral instructions.

45. As in previous years, a Christia Baptist, A Mahomedan Moulvi and a Swamiji of

of the City Sri Ramakrishna Mutt visited the Central Jail at Bangalore once a week and held discourses with prisoners on religious and moral topics of respective religions. A member of the local Theosophical Society and a Mahomedan Khaji paid weekly visits to the Mysore Jail as well and held moral discourses with the prisoners of that Jail. In addition to these arrangements, prisoners were also allowed religious books. The Superintendents of Jails report that these arrangements have been working satisfactorily and all prisoners appreciate them.

'ersonnel. (Jails)

46. Messrs P.Palpu and Mohamed Usmon continued to remain in both general and medical charges of Bangalore Central and Mysore Jails respectively during the year under report.

stablishment.

47. The staff of my office has worked satisfactorily during the year.

48. A salient feature of the year was the passing of an order by Government prescribing a standard of height and chest measurements in the case of recruits to the warder service in Jails. It is reported that endeavours have been made in vain to procure men fulfilling the standard, and Jail service, which was never attractive, continues to be undermanned more than ever before. Now-a-days an unskilled labourer earns one and a half times the wages of a Jail warder, and appointments in the Military & Police,

Police Departments have better prospects for him. The duties and responsibilities of a warder are as much trying and onerous as those of a sepoy or a constable, and unless the scale of pay of the former is -- raised to the level of the latter, if not higher, there is little scope of maintaining efficiently the warder force in full strength.

Concluding remarks.

49. On the whole, the health, discipline and conduct of prisoners were good throughout the year.

I have the honor to be,

Sir,

Your most obedient servant,

Inspector-General of Prisons.

REPORT ON THE ADMINISTRATION OF JAILS AND LOCK-UPS FOR THE CALENDAR YEAR 1916,

WITH THE GOVERNMENT REVIEW THEREON.

No. J. 727-39—PRIS. 60-16-4, DATED 27TH AUGUST 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 677-91-07, dated 5th May 1917, from the Inspector-General of Prisons in Mysore, forwarding a Report on the Administration of Jails in Mysore, for the calendar year 1916.

Order No. J. 727-39—Pris. 60-16-4, dated 27th August 1917.

The total number of admissions of prisoners of all classes during the year 1916 as 9,857 was against 10,256 and 10,464 in the two previous years. Including the number in confinement at the end of 1915, the prison population amounted to 11,082, of whom 9,819 were discharged during the year. The daily average, however, slightly rose from 1,244·84 to 1,260·20.

2. The number of juvenile convicts admitted during the year was 15 being 4 less than in the previous year. Having regard to the very small number of juvenile criminals, Government do not consider it necessary to establish a reformatory, but they would, in this connection and in connection with the larger number of short-term convictions referred to in the report, invite the attention of the Magistrates once again to the provisions of Section 562 of the Code of Criminal Procedure under which the number can be still further reduced.

3. Government are glad to observe that the number of offences committed by the convicts has fallen from 408 to 246 in the year under report.

4. *Classification of prisoners.*—It is reported that for want of suitable accommodation the habituals could not be separated from the casuals and that a separate building for the exclusive confinement of the habituals is necessary. The question may be carefully investigated and suitable proposals may be submitted for the consideration of Government at an early date.

5. The gross expenditure of the year under report excluding cost of buildings and repairs carried out by the Public Works Department amounts to Rs. 1,10,178-5-11 as against 1,06,237-2-11 in the previous year. The excess is reported to be due to a great extent *to the increased rate of pay* drawn by the Superintendent, Central Jail, and the increase in all the items except that under "Diet charges." The explanation is not very clear. The net cost of maintenance has, however, increased from Rs. 72-5-2 to Rs. 75-7-3 per head and is about Rs. 10 more than the net cost per head of average strength in the Madras Presidency. The net cash earnings are Rs. 15,092-8-2 against Rs. 16,211-13-0 in the previous year. Government observe that the income is capable of further improvement, and the Superintendents are directed to pay particular attention to this matter.

6. The Inspector-General urges the desirability of the construction of a new Central Jail with extensive grounds outside the Municipal limits in preference to the improvement of the existing buildings which are unsuitable and inconvenient and involve a large recurring expenditure on repairs. Specific proposals in this matter will be awaited by Government.

7. The Chief Engineer is requested to see that the improvements of the Jail buildings in Mysore ordered by Government in their letter No. 1145-5561, dated 8th June 1916, are taken up immediately and completed.

8. The Comptroller will be requested to examine the accounts maintained in regard to the industries carried on in the Jails and submit for the consideration of Government his suggestions for their improvement.

9. The Inspector-General of Prisons is requested to mention in his report in future, the results of the inspections of the Jails made by him during the year.

10. Government note that the administration of the Department was fairly satisfactory. Greater attention is required to bring the Jail industries up-to-date and make them more profitable. Separate orders will be issued by Government on the subject at an early date.

D. M. NARASINGA RAO,
Secy. to Govt., Gen. Dept.

To—The Inspector-General of Prisons in Mysore.
The Inspector-General of Police in Mysore.
The Registrar, Chief Court of Mysore with a covering letter.
The Chief Engineer of Mysore.
The District Magistrates of Districts.
The Comptroller, Mysore Government.

Exd.—C. R.

No. 677—91-07.

BANGALORE,
Dated 5th May 1917.

FROM

RAO BAHADUR RAJAKARYAPRAVINA,
T. V. ARUMUGAM MUDALIAR, ESQ., M.B., C.M.,
Inspector-General of Prisons in Mysore.

To

D. M. NARASINGA RAO, ESQ., B.A., B.L.,
Secretary to the Government of His Highness the Maharaja of Mysore,
General Department.

Introductory.—In continuation of my letter No. 628—91-07, dated 30th April 1917, forwarding the Annual Returns of the Jails and the Lock-ups of the State for the Calendar year 1916, I have the honor to submit the following report on their administration.

2. *Divisions.*—This report is, as usual, divided into three parts, *viz.*, Part I, Judicial—dealing with Statements Nos. 1 to 8, 18, C, D and General Summary, Part II, Financial—dealing with Statements Nos. 9, 10, 11, 12 and 13 and Part III, Vital—dealing with Statements Nos. 14-17, A and B.

3. *Inspector-General of Prisons.*—I was in charge of the Department throughout the year.

4. *Classes of prisons.*—The number of Jails and Lock-ups remained the same as in the previous year and they are as given hereunder :—

1 Central Jail at Bangalore.
1 District Jail at Mysore.
6 District Lock-ups at the Headquarter towns of districts except at Bangalore and Mysore.
1 Special Lock-up at Kolar Gold Fields.
71 Taluk Lock-ups.

THE BANGALORE CENTRAL JAIL.

5. *Buildings and accommodation.*—The buildings of this Jail are very old and in a dilapidated condition. In the year 1908, Government sent to the Chief Engineer of Mysore a list of improvements to be effected to this Jail, requesting him to carry them out gradually by providing 40 or 50 thousand rupees every year for the purpose. But a very few of them have been attended to up till now. In this connection, I may mention here that the foundations of the present buildings have almost settled down, walls cracked, wooden fittings, doors, windows, etc., deteriorated. To construct a new Central Jail outside the Municipal limits with necessary equipments and extensive lands for gardening purposes would rather be a desirable procedure than to spend 40 or 50 thousand rupees annually on repairs to the existing buildings as contemplated originally. I have called for definite proposals in the matter from the Superintendent, Central Jail, Bangalore, which I shall submit for the consideration of Government in due course.

THE MYSORE JAIL.

As regards this Jail, the Superintendent states that the buildings are very old and need constant repairs. The roofs are bending under pressure. Improvements and

repairs to these buildings were estimated at Rs. 20,890 and this amount has been sanctioned by Government. *Vide* letter No. 1145-5561, dated 8th June 1916, from the Secretary to Government, Public Works Department, to the Superintending Engineer, Southern Circle. The necessary works in question have not been commenced as yet.

Lock-ups.—The estimate for the readjustment and repairs of the old Jail buildings at Tumkur for the purpose of locating the District Lock-up has been sanctioned by the Government and the matter is reported to be in the hands of the Public Works authorities. The new Lock-up at Tiptur is stated to have been completed. The construction of the new Lock-up at Chintamani was completed and the building handed over to the Department during the year under report. The building for Lock-up purposes at Chikballapur, the construction of which was taken up last year, is, it appears, nearing completion.

The provision of separate accommodation for various classes of prisoners in the Lock-ups of the State has been a long felt want. Estimates amounting nearly to Rs. 18,058 were sanctioned by Government in their Order No. J. 2314-16—Pris. 50-15-4, dated 30th December 1916, and the Chief Engineer has been furnished with a list of such Lock-ups as are requiring immediate attention.

PART I.—JUDICIAL.

6. The year under report opened with a population of 1,225 prisoners of all classes; 9,857 prisoners were received and 9,819 discharged,leaving a balance of 1,263 prisoners in confinement at the end of the year. Although the prisoners received and discharged were less than the previous year, the daily average has risen from 1244·84 to 1260·20. This rise in the average number may be accounted for the period of detention of prisoners in Jails being longer than the preceding year.

7. *Civil Prisoners.*—At the beginning of the year, there were 10 civil debtors remaining in custody; 164 were received and an equal number discharged, leaving a balance of 10 at the close of the year. The daily average number of this class of prisoners was 9·19 against 8·83 in the previous year.

8. *Convict population—Statement No. I.*—At the commencement of the year, the convict population was 947, of whom 918 had been direct committals and the remaining 29 in transit. New admission of the former class numbered 2,234 and the admissions by transfer 81, making a total of 3,233. Of these 10 were transferred to the Central Jail, Vellore, 31 were transferred from one Jail to another within the State, 106 were released on appeal, 1,755 on expiry of sentence, 256 under Remission Rules, 2 escaped, 6 executed and 10 died, leaving a balance of 1,007 at the close of the year. Among the latter class of convicts, *i.e.*, convicts in transit whose number was 29 at the commencement of the year, fresh admissions numbered 809 making a total of 838. Out of these, 819 were actually transferred, 11 were released on appeal and 1 escaped, leaving a balance of 7 at the end of the year. The daily average number of convicts was 985·61 against 993·23 in the year preceding or a slight decrease of 7·62.

9. *Sexes of convicts.*—Out of 2,234 direct admissions to prisons, 2,096 or 93·82 per cent were males and 138 or 6·18 per cent were females. Their percentages were 95·90 and 4·10, respectively, in the previous year.

10. *Religion, age, education and occupation of convicts.—Statement No. II.*—Classified according to religion, 127 or 5·69 per cent of the total admissions were Christians, 371 or 16·61 per cent were Mahomedans, 1,733 or 77·57 per cent were Hindus and 3 or ·13 per cent were Budhists and Jains against 7·92 per cent of Christians, 13·35 per cent of Mahomedans, 78·68 per cent of Hindus and ·05 per cent of Jains, among those admitted in the year preceding. The ratios of Christians and Hindus have decreased by 2·23 and 1·11, respectively, while those of Mahomedans and Jains have increased by 3·26 and ·08, respectively, as compared with the figures of the previous year.

11. *Age periods.*—The number of convicts under 15 years of age admitted during the year was 28 or 1·25 per cent, between 16 and 40 years 1,829 or 81·87 per cent, between 40 and 60 years, 353 or 15·80 per cent and above 60 years 24 or 1·08 per cent.

12. *Education.*—Classified according to education, 229 or 10·25 per cent were able to read and write, 100 or 4·48 per cent were able to read only and the remaining 1,905 or 85·27 per cent were illiterate. Similar percentages of those admitted in the preceding year were 16·44, ·69 and 82·87 respectively.

13. *Previous occupations.*—Out of the total number of convicts admitted during the year, 2,096 were males, among whom :—

72 or 3·44 per cent were Government or Municipal servants.
59 or 2·82 per cent professional persons.
190 or 9·07 per cent were persons in personal service.
959 or 45·75 per cent were agriculturists.
214 or 10·21 per cent were persons engaged in commerce and trade.
182 or 8·68 per cent were persons employed in mechanical arts, etc., and
420 or 20·03 per cent were miscellaneous not classed otherwise.

Agriculturists form the bulk of the admissions. their percentage in the year preceding being 40·09 of the total number of males admitted. Next in order come miscellaneous persons not classed otherwise and persons engaged in commerce or trade.

14. *Civil condition of females.*—Among 138 females, the married women numbered 60 or 43·48 per cent, unmarried 36 or 26·09 per cent, widows 35 or 25·36 per cent prostitutes 7 or 5·07 per cent. As in the previous year the married women have preponderated over the others.

15. *Length and nature of sentence—Statement No. III.*—Of 2,234 convicts that were admitted direct into the Jails, 990 had not more than one month's imprisonment to undergo. The proportion of short periods of imprisonments is excessive as usual. Sixteen prisoners sentenced to transportation for life and 7 prisoners sentenced to suffer death were admitted to Jails against 10 and 9, respectively, in the year previous. Classified according to nature of sentence :—

193 or 8·64 per cent had been sentenced to simple imprisonment.
2,025 or 90·65 per cent had been sentenced to rigorous imprisonment.
13 or ·58 per cent had been sentenced to rigorous imprisonment with solitary confinement.
3 or ·13 per cent had been sentenced to rigorous imprisonment with whipping.

16. *Nature of offences—Statement No. D.*—Theft including theft in a building and by servants outnumber all other causes of imprisonment ; the convictions thereunder being 1,143 or 51·16 per cent of the total admissions and convictions under Special, Local and Municipal Laws have decreased, being 154 or 6·89 per cent against 229 or 10·54 per cent of the total number of admissions in the year 1915.

17. *Recommittals, Habituals and Juvenile offenders.—Statement No. IV.*—Of the total number of admissions into Jails and Lock-ups during the year, 330 had been previously convicted. This number includes 15 female convicts. The number of recommittals among juveniles was less than that in the year previous, being 4 against 5.

18. *Classification of Prisoners.*—The Superintendent, Mysore Jail, complains to me that there is very little scope for the classification and separation of convicted prisoners in that Jail beyond the bare fulfilment of the provisions of Rule 197 of the Mysore Jail Manual. At work and out of work casuals mix with habituals and get themselves initiated in wicked ways. If one of the objects of imprisonment is the reclamation of casual offenders, it can only be achieved by effectually separating them from those hardened in crime. To separate entirely casuals from recommittals and habituals is not possible, inasmuch as the barracks, etc., of this Jail are situated one behind the other instead of radiating from a centre as in well designed Jails. The construction of a Jail therefore for the exclusive confinement of prisoners of the latter type appears to be the only best solution possible.

19. *Escapes and recaptures.—Statement No. V.*—Of the 22 convicts who had escaped during the previous ten years, none was recaptured in the year under report. The escapes during the year numbered 3, two being from the Bangalore Central Jail and one from the Special Lock-up, Kolar Gold Fields. Out of the two that escaped from the Bangalore Central Jail, one was recaptured and the other is remaining still at large. The one convict who had escaped from the Kolar Gold Fields Lock-up was also recaptured during the year. The two recaptured prisoners in question were suitably dealt with for the offence of escape from lawful custody.

20. *Offences and punishments.—Statement No. VI.*—The total number of offences recorded was 246 against 408 in the year previous. All the offences have been dealt with by the Superintendents of Jails themselves under the authority vested in them

by the Prisons Act of 1870. Of the offences tried by them, 51 or 20 per cent have been met with corporal punishments against 50 or 12 per cent in the year 1915.

21. *Convict Officers.—Statement No. VII.*—Among a daily average number of 985·61 convicts, 129 or 13·08 per cent were employed as Prison officers against 123 or 12·38 per cent of the daily average number of convicts employed in the year previous. The number of recorded offences rose from 27 in 1915 to 54 in the year under report.

22. *Diet.—Statement No. VIII.*—The scale of dietary sanctioned tentatively by Government in their Order No. J. 2598—Pris. 45-10-5, dated 13th March 1911, was in force till the end of March 1916 in the case of all Indian convicts under sentence of hard labour in both the Jails of the State. This scale was made permanent thereafter with the modification that non-vegetarians are allowed to have meat (without bone) in lieu of dhal once a week at the rate of 4 ozs. per individual. *Vide* Government Order No. J. 3750-51—Pris. 24-15-6, dated 21st March 1916. In the case of other prisoners, *viz.*, Europeans and East Indians, simple and under-trial prisoners confined in the Jails and of all classes of prisoners in the Lock-ups of the State, the scales of dietary prescribed in the Mysore Jail Manual of 1894 and in the Lock-up Rules of 1892 were in force.

23. *Under-trial Prisoners.—Statement No. XVIII.*—This statement is submitted along with the others duly prepared in the revised form, the adoption of which was sanctioned by Government in their Order No. J. 2004—Pris. 32-16-2, dated 4th December 1916. The main object of amending the form is to obtain accurate information as to the number of under-trial prisoners discharged and acquitted by Magistrates and released by Police respectively. There remained 268 prisoners of this class at the commencement of the year. Fresh admissions numbered 6,569 making a total of 6,837. Of these—

505 were released on bail,
1,456 were discharged and acquitted by Magistrates,
1,779 were released by the Police,
1,965 were convicted and sentenced,
888 were transferred, and
5 escaped, leaving a balance of 239 at the close of the year.

The number of admissions and acquittals decreased from that of the previous year. But their average period of detention was longer than that of the year preceding, *i.e.*, 14·20 days against 12·00 days and consequently their daily average has increased from 242·78 to 265·40.

24. *Mark system. Statement No. C.*—The number of convicts released under the operation of the Mark Rules of 1899 was 256 against 281 in the year before. The number came under the operation of both the Mark Rules of 1899 and the Ticket-of-Leave Rules of 1892 was 3 against 10 in the year preceding. The maximum remission gained was 1,521 days by a life convict of the Bangalore Central Jail. The maximum gratuity earned by another life convict of the same Jail was Rs. 48-3-0. The average gratuity earned by convicts released was Re. 0-14-0 during the year against Re. 1-12-5 in the year 1915.

PART II.—Financial.

25. *Gross expenditure.—Statement No. IX.*—Excluding the outlay on account of buildings, the gross expenditure during the year was Rs. 1,10,178-5-11 against Rs. 1,06,237-2-11 in the year previous. Of all the heads of expenditure, the only one that has shown decrease is "Dietary charges," which is mainly due to the cheaper rates at which articles of diet were purchased during the year under report. The other heads show an increase, that of "Establishment" showing it more markedly than the rest. The increase of nearly Rs. 2,400 under "Establishment charges" may chiefly be attributed to the increased rate of pay drawn by the Superintendent, Central Jail, Bangalore. As a result of this, the cost per head rose slightly from Rs. 85-5-6 in 1915 to Rs. 87-6-10 in the year under report.

26. *Employment of convicts.—Statement No. XI.*—Of a daily average of 985·61 convicts, 900·67 or 91·38 per cent were available for work, the rest being either prisoners undergoing simple imprisonment, sick and convalescent or infirm or those who could not be employed for other reasons. Of the convicts available for work, 129 or 14·32 per cent were employed as Prison Officers, 50 or 5·55 per cent as Prison servants and 303 or 33·64 per cent on manufacture against 123 or 13·56 per cent, 45 or 4·96 per

cent and 291 or 32·09 per cent of the daily average of convicts available for work, employed respectively as such in the year 1915.

27. *Cash earnings of prisoners.—Statement No. XII.*—The result of employment of convicts was that a sum of only Rs. 15,092-8-2 was realized as revenue against Rs. 16,211-13-0 realized in the previous year. This amount includes a sum of Rs. 1,552-15-0 received in Court-fee stamps for testing weights and measures in the Central Jail at Bangalore and also another sum of Rs. 2,945-4-0, which is the value of convict labour employed at the Palace institutions and Dewan's Quarters in Bangalore and Mysore calculated at the rate of 2 annas per head per diem and accredited only in the administrative accounts of the Department. The average cash earnings per head of working convicts has come down from Rs. 17-14-1 in 1915 to Rs. 16-12-1 in the year under report.

28. *Net cost of prisoners.—Statement No. XIII.*—The gross cost of maintenance was, as stated in para 25 above, Rs. 1,10,178-5-11; deducting from this, the total cash earnings of prisoners, *i.e.*, Rs. 15,092-8-2 (*vide* para 27 above), the net cost of maintenance of prisoners in Jails and Lock-ups was Rs. 95,085-13-9 or Rs. 75-7-3 per head against a net cost of Rs. 90,025-5-11 or Rs. 72-5-2 per head in the year previous. As already explained, the increased rates of expenditure under several of the heads have been the main cause in bringing out this increased cost per head.

The Bangalore Central Jail.

29. *Industries in Jails.*—The outlay on the various industries carried on in this Jail was Rs. 18,734-14-0 and the amount realized and credited to Treasury was Rs. 22,326-13-10 or an increase of Rs. 3,591-15-10 against Rs. 18,614-0-9 and Rs. 23,013-3-9 respectively in 1915. The Superintendent says that in calculating the realizations, the value of raw materials and the manufactured goods that remained at the beginning and end of the year under report has not been taken into account; nor has the outstandings debts been included.

In the new branch of making and testing weights and measures, 24,947 measures presented by the public were tested and stamped and a sum of Rs. 1,552-15-0 is reported to have been realized in the shape of court-fee stamps for verifying and stamping measures during the year under report against Rs. 1,555-4-0 for 24,884 measures tested in 1915.

Mysore Jail.

30. The manufacturing branch of this Jail has worked with a profit of Rs. 564-11-2 during the year under report. The amount allowed annually for outlay for manufacturing purposes is about Rs. 1,200. The Superintendent of this Jail states that, under the existing conditions the net profit accruing from out of this amount cannot be improved to anything far more than the Jail has made this year. Much more can be done, but that requires an adequate set of teachers, etc., and workmen equipped with up-to-date tools and plant.

31. Proposals for enlarging the industries in the Mysore Jail have already been made and the orders of Government thereon are awaited. As for the improvement of industries in the Central Jail at Bangalore, I have called for detailed proposals from the Superintendent of that Jail, which I shall submit to Government in due course with my opinion thereon.

32. As I have been representing to Government year after year, the maintenance of accounts relating to the industries carried on in the Jails is not very satisfactory. To gauze definitely the loss or gain in a particular branch of industry, the accounts relating thereto should necessarily be maintained in such forms as would give a clear idea of its working. The necessity for prescribing the revised forms and registers on this account is being felt very keenly and I hope that the matter will receive attention of Government, when the revised Jail Manual which is now before them will issue.

33. *Central Jail garden.*—The garden in this Jail has supplied the requirements of the Jail without interruption. The outlay on account of the purchase of seeds, implements, etc., was Rs. 267-12-5 and the realization by the sale of vegetables to the public was Rs. 639-11-5. The value of vegetables supplied to prisoners amounted to Rs. 1,207-4-2. The Superintendent reports that the realization on account of supplies made to prisoners is less when compared to the average number of prisoners employed in the garden. This is mainly attributed to the fact that the value of the vegetables

so supplied was calculated at the rate tendered by the contractor, which was lower than the ruling market rate.

34. *Mysore Jail garden.*—The amount spent on this garden was only Rs. 24-0-5, while the proceeds of vegetables, etc., sold to the public was Rs. 326-3-5. The cost of vegetables consumed by the prisoners themselves amounted to Rs. 364-9-5. Comparing the outlay with the realization, it may be gathered that the garden in this Jail has done good work during the year under report.

PART III.—VITAL.

35. *Sickness and mortality.—Statement No. XIV.*—In the year previous, the Jails and Lock-ups in the State, exclusive of Hospitals and observation cells, were capable of accommodating 2,334 prisoners, but in the year under report accommodation became available for 2,359 which was due to :—

(1) the re-measurement of barracks and the re-fixing of accommodation at standard cubical dimensions in the District Jail at Mysore, and
(2) the additions and alterations effected to some of the Lock-up buildings during the year.

The aggregate number of prisoners admitted into Hospital came down from 477 in 1915 to 455 in the year under report. The daily average number of sick consequently fell from 19·38 in 1915 to 14·36 in this year. The number of deaths (all occurred among convicts of the Central Jail at Bangalore) is 10 against 22 in the year previous.

36. *Sickness and mortality among convicts.—Statement No. XV.*—The number of convicts treated for various diseases decreased all over except those treated for malarial fevers. The admissions for these fevers (malarial) rose from 113 in 1915 to 191 during the year under report, but no deaths occurred among them. Of the 10 deaths among convicts—

2 due to dysentery,
1 due to tubercle of the lungs,
2 due to pneumonia,
1 due to diarrhœa and the remaining, and
4 due to other general diseases enumerated below :—
  1 diabetis,
  1 Cirrhosis,
  1 synovitis,
  1 bronchitis.

37. *Mortality according to length of original sentence.—Statement No. XVI.*—Out of the 10 deaths among the convicts, 3 occurred among those whose sentence did not exceed six months, 2 among those undergoing sentence not exceeding one year, 3 among those whose sentence did not exceed three years, and the remaining 2 among those whose sentence was above seven years.

38. *Mortality according to length of time passed in Jails.—Statement No. XVII.*—Of the number of deaths, *i.e.*, 10, 4 died within six months after their admission, 3 within 1 year and the remaining 3 within seven years. These figures, however, indicate, in a general way, the state of health in which many prisoners are found on admission into Jails.

39. *Accommodation in Jails.—Statement No. A.*—No overcrowding was reported during the year either from the District Jail at Mysore or any Lock-up in the State. But the Central Jail at Bangalore became overcrowded and consequently, a batch of 75 convicts was transferred from there to the Mysore Jail.

40. *Conditions of convicts discharged.—Statement No. B.*—The total number of convicts discharged during the year was 3,057 against 3,198 in the year previous. Of these, 1,619 convicts who were discharged from Lock-ups were, as usual, not weighed either at the time of their admission or discharge. Of the remaining 1,438 convicts that were released from the Jails after weighment 768 had gained weight, 340 had lost weight and the remaining 330 had neither gained nor lost it.

41. *Drainage and conservancy.*—No innovations were effected in these directions during the year under report. The dry earth system of conservancy has been in force in Jails as well as in Lock-ups, male prisoners are adopting the Hebrew method of evacuation in Lock-ups.

42. Articles of diet were, as usual, and subject to the conditions laid down in the rules relating to the purchase of stores, obtained from contractors at rates previously agreed upon in the case of Jails at Bangalore and Mysore. In the case of Lock-ups, the procedure of obtaining food grains, etc., at the prevailing market rates from respectable local merchants that was in force in the year previous continued during the year under report.

43. *Water-supply.*—Water-supply was ample throughout and wholesome during the year under report except in the Central Jail at Bangalore, where difficulty was felt in getting supply of water of sufficient quantity in the female prison as well as near the rear gate. The Water-supply Department has not rectified the defects notwithstanding frequent requisitions.

44. *Clothing and bedding of prisoners.*—Clothing and bedding were issued to prisoners according to seasonal requirements and the rules in force.

45. *Religious and moral instructions.*—As in previous years, a Christian Baptist, A Mahomedan Moulvi and a Swamiji of the City Sri Ramakrishna Matt visited the Central Jail at Bangalore once a week and held discourses with prisoners on religious and moral topics of respective religions. A member of the local Theosophical Society and a Mahomedan Khaji paid weekly visits to the Mysore Jail as well and held moral discourses with the prisoners of that Jail. In addition to these arrangements, prisoners were also allowed religious books. The Superintendents of Jails report that these arrangements have been working satisfactorily and all prisoners appreciate them.

46. *Personnel.*—(*Jails*).—Messrs P. Palpu and Mohamed Usmon continued to remain in both general and medical charges of Bangalore Central and Mysore Jails, respectively, during the year under report.

47. *Establishment.*—The staff of my office has worked satisfactorily during the year.

48. A salient feature of the year was the passing of an order by Government prescribing a standard of height and chest measurements in the case of recruits to the warder service in Jails. It is reported that endeavours have been made in vain to procure men fulfilling the standard and Jail service, which was never attractive, continues to be undermanned more than ever before. Now a days an unskilled labourer earns one and a half times the wages of a Jail warder and appointments in the Military and Police Departments have better prospects for him. The duties and responsibilities of a warder are as much trying and onerous as those of a sepoy or a constable and unless the scale of pay of the former is raised to the level of the latter, if not higher, there is little scope of maintaining efficiently the warder force in full strength.

49. *Concluding remarks.*—On the whole, the health, discipline and conduct of

I have the honor to be,
Sir,
Your most obedient servant,
T. V. ARUMUGAM MUDALIAR,
Inspector-General of Prisons.
